

Ali Termos

SALESFORCE TECHNICAL CONSULTANT

Beirut, Lebanon
(+961) 71 975 763
[Email](#) | [LinkedIn](#)

Salesforce Developer with over 3 years of experience in building and customizing end-to-end Salesforce applications. Proficient in Apex, Lightning Web Components (LWC), Visualforce Pages (VFP), and Salesforce Flows. Strong problem-solving skills, with a focus on delivering high-quality, user-friendly applications. Adept at working in collaborative environments and committed to continuous learning and professional growth in Salesforce technologies.

Experience

EI Technologies Multi-Functional Developer	October 2022 – Present
- Integrated Salesforce with other systems using Apex (web services) and developed effective Apex triggers, classes, and flows streamlining data processes and increasing data quality. - Utilized reusable Lightning Web Components (LWC), significantly reducing development time and enhancing efficiency. - Strengthened system integrity and functionality by assisting in application testing. - Refactored existing code to improve readability and maintainability.	
Reconguide Intern Backend Developer	December 2021 – September 2022
- Created REST APIs to efficiently retrieve and manage data. - Demonstrated proficiency in writing optimized, low-complexity code that enhances performance. - Conducted thorough testing to identify and resolve application bugs.	

Projects

Air Liquide	January 2025 – Present
Air Liquide is a world leader in gases, technologies and services for industry and healthcare. Integrated Salesforce with an external system to enable seamless data exchange. Built FHIR-compliant JSON dynamically using custom metadata to structure the data. Ensured efficient transmission and processing through a robust integration framework.	
Madi International	September 2024 – January 2025
Madi International is a multi-brand, multi-trade channel distributor covering all beauty categories including hair, skin, and nail care. - Crafted an intuitive and user-friendly UI that made navigation easier and optimized overall usability, enhancing client satisfaction. - Built a B2B experience site using Salesforce B2B Commerce Cloud, designed to meet various business needs effectively.	
Nakheel/DHRE	June 2023 – September 2024
Nakheel Properties is a real estate development company based in Dubai, United Arab Emirates. Later in 2024, Nakheel was merged under Dubai Holdings. - Integrated Salesforce with Docusign for digital signing through the Apex toolkit and Docusign App, enhancing client satisfaction. - Implemented over six customized business templates using Nintex, streamlining workflows and enhancing business operations.	
DMCC	October 2022 – June 2023
The Dubai Multi Commodities Centre (DMCC) is a commodities exchange and free-trade zone in the United Arab Emirates. - Transitioned from AURA and Visualforce pages to LWC, resulting in faster load times and improved user experiences, leading to an increase in user engagement. - Delivered a responsive website that enhanced user experience, resulting in increased engagement and overall satisfaction. - Designed reusable Lightning Web Components (LWC) to simplify deployment and enhance the development workflow.	

Education

Lebanese University, Bachelor degree	2018 - 2021
Major: Computer Science	
Hussein Maktabe High School, High School degree	2017 - 2018
Major: General Sciences
